

PVC · XLPE · Silicone · EPR/PCP · Butyl · Rubber · Trailing · Control · EV Charging · Solar DC · PTFE · Silicone Tubes

In the cable trade since 1986

DELHI NCR, INDIA | WWW.UVCABLES.COM

01 About Us

UV Cables is a Delhi NCR-based supplier and manufacturer of industrial cables, serving other manufacturers and retail distributors. Proprietor **Matloob Hasan** began working in the cable trade in 1986 — mostly trading and supplying — and has led the firm since.

Our focus is quality construction, quick turnaround, and competitive pricing — without the overhead of large-scale certification processes. We are a lean, focused manufacturer that keeps things simple: make a good product, deliver it on time, and stand behind it.

We produce cables across PVC, XLPE, Silicone, EPR/PCP, Butyl Rubber, Rubber, Trailing & Reeling, Control, EV Charging, Solar DC, PTFE (Teflon), and Silicone Tubes & Profiles — covering virtually every industrial wiring need in the market.

1986	1.1kV–33kV	-65°C to 260°C
IN THE TRADE SINCE	VOLTAGE RANGE	TEMP. RANGE ACROSS RANGE

Trading & Supply Since 1986
Started in the cable trade, mostly trading and supplying.

Custom Lengths & Specs
Any conductor size, any length — manufactured to order.

Pan-India Delivery
Reliable, prompt supply to manufacturers and retail trade.

B2B Manufacturer
Dedicated supply to other manufacturers and distributors.

Fast Order Processing
Agile manufacturing operations ensure rapid order processing and quick dispatch.

Full Spectrum
From PVC to EV charging — covering the industrial spectrum.

02 What We Stand For

Quality First
Every cable is manufactured to consistent quality standards, regardless of order size.

Transparency
We are upfront about our capabilities and limitations — no overselling, no false promises.

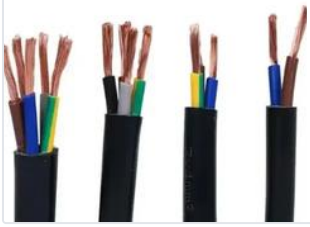

Long-Term Partnerships
We aim to be a reliable supply partner, not just a one-time vendor.

Responsiveness
Quick quotes, fast production, and prompt delivery — we respect your timelines.

03 Product Range

Each built and rated for a specific application — our twelve product lines span everyday building wiring through extreme-temperature and chemical-resistant duty.

PVC Cables

Up to 1.1kV · IS 694 / IS 1554

XLPE Cables

1.1kV–33kV · IS 7098

Silicone Cables

-60°C to +180°C

EPR / PCP Cables

Up to 3.3kV · IS 9968

Butyl Rubber Cables

Up to +110°C · Chemical/Radiation resistant

Rubber Cables

Up to 1.1kV · IS 9968 Pt.1

Trailing / Reeling Cables

Up to 3.3kV · IS 9968 Pt.2

Control Cables

2–61 Cores · IS 1554 Pt.2

EV Charging Cables

Up to 200A DC · IEC 62893

Solar DC Cables

Up to 1.8kV DC · IEC 62930

PTFE (Teflon) Cables

-65°C to +260°C

Silicone Tubes & Profiles

-60°C to +200°C · Custom profiles

info@uvcables.com | +91 98180 88873

04 Technical Specifications Summary

A quick-reference summary of voltage rating, temperature range, and applicable standard for each product line.

PRODUCT	VOLTAGE RATING	TEMP. RANGE	STANDARD
PVC Cables	Up to 1.1 kV	-15°C to +70°C	IS 694, IS 1554 Pt.1
XLPE Cables	1.1 kV – 33 kV	Up to +90°C (cont.)	IS 7098 Pt.1 & Pt.2
Silicone Cables	Up to 1.1 kV	-60°C to +180°C	Customer Spec / BS 6500
EPR / PCP Cables	Up to 3.3 kV	-40°C to +85°C	IS 9968 Pt.1 & Pt.2
Butyl Rubber Cables	Up to 1.1 kV	Up to +110°C	Customer Spec / IS 9968
Rubber Cables	Up to 1.1 kV	-25°C to +60°C	IS 9968 Pt.1
Trailing / Reeling Cables	Up to 3.3 kV	-40°C to +85°C	IS 9968 Pt.2
Control Cables	Up to 1.1 kV	Standard PVC/XLPE range	IS 1554 Pt.2
EV Charging Cables	1 kV AC / 1.5 kV DC	-40°C to +90°C	IEC 62893
Solar DC Cables	Up to 1.8 kV DC	-40°C to +90°C	IEC 62930
PTFE (Teflon) Cables	Up to 1.1 kV	-65°C to +260°C	Customer Spec / BS 6500
Silicone Tubes & Profiles	N/A	-60°C to +200°C	Customer Spec / IS 11149

Note: The standards listed above reflect the specifications our products are manufactured to. UV Cables does not currently hold third-party certification against these standards; testing and certification can be arranged externally on customer request.

05 Indicative Standards Reference

The table below lists commonly applicable Indian and IEC Standards for the product categories we supply.

STANDARD	SCOPE	APPLICABLE CABLES
IS 694 : 2010	PVC insulated cables for working voltages up to 1100V	PVC Cables
IS 1554 Pt.1 : 1988	PVC insulated (heavy duty) cables up to 1100V	PVC Sheathed Power Cables
IS 1554 Pt.2 : 1988	PVC insulated & sheathed cables up to 1100V (control use)	Control & Instrumentation
IS 7098 Pt.1 : 1988	XLPE insulated cables up to 1.1 kV	XLPE Power Cables (LT)
IS 7098 Pt.2 : 1985	XLPE insulated cables 3.3 kV to 33 kV	XLPE Power Cables (HT)
IS 9968 Pt.1 : 1988	Elastomer insulated cables up to 1.1 kV	Rubber, Butyl, EPR Cables
IS 9968 Pt.2 : 1981	Elastomer insulated cables 1.1 kV to 33 kV	EPR/PCP Trailing & Reeling
IEC 62930 : 2017	Cables for PV systems, up to 1.8 kV DC	Solar DC Cables
IEC 62893 : 2017	Charging cables for electric vehicles	EV Charging Cables
IS 11149 : 1984	Silicone rubber compounds for electrical purposes	Silicone Tubes & Profiles
Customer Spec	Manufactured to buyer's drawing and specification	PTFE Cables, Silicone Tubes

Provided as a general technical reference. Customers with specific certification requirements are welcome to discuss testing and documentation needs at the enquiry stage.

06 Industries We Serve

From power utilities to solar energy — our cables are built for every industrial sector.

Power & Utilities

High-voltage underground and overhead distribution cables for substations, grid connections, and industrial power feeders.

Construction & Infrastructure

General wiring, flexible supplies, and control cables for residential, commercial, and infrastructure projects.

Mining & Heavy Industry

Trailing, reeling and portable cables rated for tough underground and open-cast mining environments.

Automation & OEM

Multi-core screened control cables and flexible wiring for PLC panels, robots, and OEM machine builders.

Solar Energy

UV-stabilised DC cables for rooftop and utility-scale solar PV systems, string wiring, and combiner boxes.

EV Charging Infrastructure

High-current flexible cables for AC and DC fast EV charging stations, Type 2 and CCS2 connectors.

Steel & Foundry

Extreme-temperature silicone and butyl cables rated to +180°C for furnaces, ladle cranes, and hot areas.

Chemical & Process Plants

Oil, chemical, and radiation-resistant cables for refineries, petrochemical plants, and nuclear facilities.

General Industry

From welding cables to instrumentation — our broad product range covers virtually every wiring need.

Retail Distribution

Supplying wholesale and retail distributors across Delhi NCR with fast-moving cable SKUs.

Pharmaceutical & Food

FDA-aligned PTFE cables and food-grade silicone tubes and profiles for hygienic process environments.

07 Markets We Serve

Manufacturers & Distributors
Dedicated B2B supply to other manufacturers, contractors, and trade distributors across Delhi NCR and pan-India.

Institutional & PSU-Linked Supply
Working towards empanelment and vendor registration with public sector undertakings and government buyers.

B2B Trade Platforms
Active presence on IndiaMART, TradeIndia, and the Government e-Marketplace (GeM), enabling bulk and repeat B2B orders.

Export
IEC-registered, enabling the firm to undertake cross-border trade as opportunities arise.

08 Why Work With Us

- ✓ Promoter-led business with cable trading and supply experience dating back to 1986
- ✓ 12 product lines across PVC, XLPE, Silicone, EPR/PCP, Butyl, Rubber, EV, Solar, PTFE and more
- ✓ Custom lengths and cross-sections manufactured to order — not limited to fixed SKUs
- ✓ Formally registered entity — GST, Udyam (MSME), and IEC compliant
- ✓ Lean operations mean faster quotes and turnaround than larger, layered organisations
- ✓ Upfront about capabilities and limitations — no overselling, no false promises

09 Infrastructure & Quality Process

UV Cables sources conductor and insulation raw materials conforming to standard Indian specifications. We maintain dimensional checks, conductor gauge verification, and visual sheath inspection on outgoing consignments. As a lean, agile manufacturer, we prioritise consistent construction quality and honest turnaround commitments over large-scale in-house certification overhead — and can coordinate third-party NABL-accredited lab testing (e.g. CPRI, ERDA) on client request for orders that require formal test reports.

10 Packing & Delivery

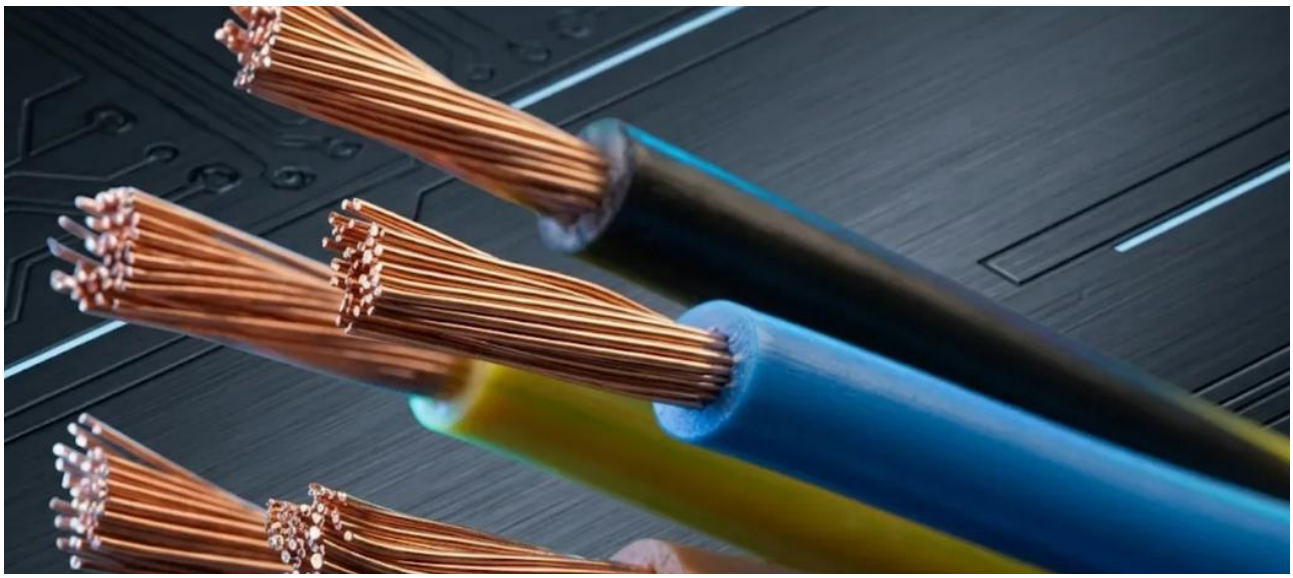

Cables are supplied on standard wooden/steel drums or in coil form depending on length and gauge, with end-sealing to prevent moisture ingress during transit. Dispatch is arranged pan-India, with invoice and e-way bill documentation provided with every consignment.

info@uvcables.com | +91 98180 88873

11 Registration & Compliance

UV Cables (legal name: United Values Cables) operates as a registered proprietorship with the following statutory registrations in place:

Legal Entity Name	United Values Cables
Nature of Concern	Proprietorship
Proprietor	Matloob Hasan
GSTIN	07AFUPH7105N1ZX
Udyam (MSME) Registration No.	UDYAM-DL-04-0036764
Importer-Exporter Code (IEC)	AFUPH7105N
PAN	AFUPH7105N
Registered Address	27/1/2, Street No. 10, Park Side, Sangam Vihar, Jharoda, North Delhi, Delhi – 110084

12 Get In Touch

Whether you need a regular supply of standard cables or a custom specification, we're happy to talk. When reaching out, it helps to include: cable type, voltage/current rating, conductor cross-section, number of cores, quantity, and the IS/IEC standard required.
